

# THINKING ABOUT OTHER ALTERNATIVES TO SEU GRACE FAMILY CAMPUS? BE SURE TO ASK THESE 5 KEY QUESTIONS

## 1. DO I REALLY NEED A DEGREE TO GO INTO MINISTRY?

Some people go directly into ministry without a degree. But with a degree from SEU Grace Family Campus in hand, coupled with the experience of our internships, you'll be much better prepared to go into ministry. Plus you'll find that even more doors will be opened to you than you could ever have imagined.

## 2. IS COMMUNITY COLLEGE A BETTER FIT?

It might be. We don't presume to know what's best for you. But our students who have transferred from community college tell us they felt like just a number there; just another anonymous student going to class and then back to their car. They didn't experience any "community" at community college. But here at SEU Grace Family Campus, we will know you by name. And so will your professors and the other students. We have a laser focus on making you an integral part of our community.

## 3. HOW CAN I BUILD COMMUNITY WITHOUT LIVING ON CAMPUS?

We don't have dorms. We don't have tens of thousands of students walking around the campus. We don't have 500 different clubs to consider joining. If that's what you're looking for, there are lots of college options out there. But we do have an intentionality on building community that you won't find at the big schools - like going on an international mission trip each year, group competition in sports, small group gatherings, weekly worship together, dinners in our staff's homes, attending Leadership Forum at the SEU campus in Lakeland, and our students' favorite: the Mystery Bus Tour!

## 4. ISN'T GOING TO COLLEGE AT A CHURCH A LITTLE WEIRD?

Weird isn't the word we would choose. 'Uncommon' or 'cutting edge' would be more to our liking. We realize we might be the only college option you're considering with a campus at a church. But think of all the benefits. Have you ever tried to park at most college campuses? It's like parking in the Goofy Lot at Disney, but with no tram to take you to the monorail! Here at SEU Grace Family Campus, we park and take a few steps to the classroom. Confused on a lesson? At other campuses, you stand in line after class hoping the Graduate Assistant can help. But on our campus, you can meet one-on-one with our professors whenever you need help. In addition, many of our internships happen here on the campus, which makes your 'commute time' to your office only a couple easy steps away. Plus, being fully staffed by Christians means we're going to love on you every step of the way!

## 5. DO YOU REALLY WANT THE WORLD'S VERSION OF THE COLLEGE EXPERIENCE?

We all know someone who went off to college, had the typical college experience, and unfortunately, fell into a dark pit. In many cases, they end up dropping out - bringing shame and student loan debt home with them. While we can't guarantee every student will graduate, we *can* assure you that the temptations of most college campuses are nonexistent here. Reduced temptations correlate to an increased chance of graduating on time. And with our affordable tuition, you won't be bogged down with a mountain of debt before you start climbing your career mountain.
